Compression Hose Policy

November 9, 2010

A new policy for compression hose is now in effect due to the lack of adequate reimbursement from insurance companies and the rising cost of compression hose. We now ask for the cost of the compression hose up front from the patient. We will file with the insurance company for the compression hose only upon request from the patient. However if a claim is filed, the patient will only be refunded what the insurance has paid. No refunds will be given for contractual deductions or write off's.
Sincerely,

Management

I have read and understand the above policy.

_____ I do wish to receive the compression hose. I understand that I will be responsible for payment. **Do not bill** my insurance company.

_____ I do wish to receive the compression hose. I understand that I will be responsible for payment. **Please bill** my insurance company, I understand that I will only be refunded for the amount my insurance company pays.
